Hi Kasevaddi and Vivek,

I wanted to take a moment to thank you for your continued efforts on this build issue that kept us busy for past 2 months.

Even though this is a legacy application, keeping the build stable is extremely important, as it supports a critical business area for the Orthostice team. The recent communications from them clearly reinforce the same importance.

I truly appreciate the ownership and commitment shown in keeping this afloat. Please keep up the great work!

Thanks again.

Nagaraj Ramachandra
